

Next Saturday, June 11, the Formentera Council's Office of Sport will put on the island's very first athletics day for school-age children. As CiF sports councillor Jordi Vidal reported, three municipal athletics clubs –Sant Joan, Sant Josep and Formentera– will gather in the Antoni Blanc sports centre for the event.

Vidal said there would be activities to develop cooperation, equality and camaraderie – “all crucial in sports,” he maintained. “Not only are these values that sports and athletics help cement, but they are ones the Council works to enstill in our local athletes.” As proof, Vidal pointed to a document drafted by the Council earlier this year on values in sports. Saturday's activities begin at 11.00am and go till 4.30pm. There will be a lunch break taken in two turns. A total of 75 children aged five to ten and from both Eivissa and Formentera are scheduled to participate. Entry is free and open to the public. Â
