

Renewing their commitment to quality content production at *Ràdio Illa*, Formentera's public radio station, the Consell de Formentera and the Associació Cultural Audiovisual de Formentera (ACAF) have once again signed a joint accord in the amount of €33,000.

The deal stipulates that in 2015, the ACAF will be responsible not only for producing the daily news magazine *De Far a Far*, but also coordinating the remainder of the station's volunteer-based programming.

Such joint action is a manner in which the public and the private sectors can come together to provide a specific service. CiF president Jaume Ferrer expressed his satisfaction with the state of operations at *Ràdio Illa*, declaring the station had “made an important leap forward in terms of quality”.

Paco Pérez declared that ACAF's goal would continue to be “to keep *Ràdio Illa* in the collective consciousness of Formentera”.
