

At 11.30am this morning in the hall of ceremonies of Formentera Council's central office, the small and medium-sized business association of Eivissa and Formentera, or PIMEF, hosted a presentation on a series of training courses soon to be offered by the group. Pep Mayans and Lidia Álvarez, PIMEF's chairman and director, were joined at the event by Alejandra Ferrer, trade secretary for the Formentera Council, which is partnering with PIMEF to put on the training.

Eight courses, offered at PIMEF's office from October 24 to November 6 and subsidised by the Formentera Council, are free and open to the public. The classes are part of a partnership between PIMEF and the Council on business training and consulting.
