

The Formentera Office of Entrepreneurship has concluded its participation in the SOIB Reactiva 2021 programme with the last three hires. All told, 12 jobless islanders received six-month contracts as part of the programme, which aims to "boost employment on Formentera and incorporate people into the jobs market, particularly young people and individuals facing long-term unemployment", stressed Ana Juan, President of the Consell and Councillor of Entrepreneurship.

To fund the recruitment programme, Formentera receives €107,414.45 from the Employment Service of the Balearic Islands (*Servei d'Ocupació de les Illes Balears*, SOIB).

Since the start of SOIB Reactiva positions have been made available for three administrative assistants; two multi-purpose operators under 30 years of age and registered in the National Youth Guarantee System (*Sistema Nacional de Garantía Juvenil*); three long-term unemployed cleaners over 30 years of age; two information assistants; and one cleaner and one maintenance operator over 30 years of age.

The SOIB's Reactiva programme is co-financed by the European Social Fund (ESF) and the Sectorial Conference.
