

The Formentera Council's departments of culture and social welfare report that this weekend's programmed feature at the local cinema, the Javier Fesser-directed Campeones, is a dramedy whose cast includes Javier Gutiérrez and individuals with a diverse range of disabilities.

Proceeds from the scheduled Friday (9.30pm) and Sunday (9.00pm) screenings will go to benefit APNEEF, an Eivissa/Formentera-based association for individuals with special needs. This Friday, in a merchandise stand set up at the cinema's entrance, several children from APNEEF will be on hand to lend a hand with ticketing and ushering.
