

The Formentera Department of Youth is pleased to announce the calendar of events this June at the Casal de Joves, a bill whose standout features include two special activities for fiction and comic fans. The first comes Friday the 4th, as youth at the drop-in centre are invited to face off in the manga-inspired collectible card game YU-GI-OH. And on Friday the 11th the focus on Japan continues with a fancy dress session in the tradition of “cosplay”, a subculture whose members dress up as manga, anime and video game characters.

On Saturday the 12th island youth can join an outing to Eivissa to go karting! (Space is limited; signups at the Casal de Joves.) On Wednesday the 16th and Friday the 18th, we’ll host DIY workshops to build planters — part of the new decorations at the Casal.

Participants in a Friday the 25th workshop on artistic creation will learn how to do paper marbling, and on Saturday the 26th it’s an afternoon of skateboarding.

Cinema sessions on Wednesday the 23rd and 30th will centre on experiences of refugees. An additional screening will take place on the 2nd, and on Wednesday the 9th youth can catch a film about the environment on World Environment Day (5 June). Vanessa Parellada highlighted the programme’s diversity and “the Casal’s historic emphasis on current affairs that can shape awareness about sustainability and inequalities, among others”.

Social media

Something to say? Share posts on the Casal de Joves’ social media accounts. The theme on Saturday the 5th is the menstrual cycle. On Saturday the 19th the first beach photographs will be shared!

And lastly, dance class participants will meet at the usual time: Tuesday to Friday from 4.30pm to 5.30pm.
