The Office of Youth Affairs of the Consell de Formentera is pleased to report that a questionnaire is being administered that will allow local 11- to 19-year-olds to help design youth policies in the years ahead. This survey is part of a study to develop Formentera's third Plan for Children and Youth.

"If you had a magic wand, what would you want to do on Formentera?" is the question put to young people at the start of a questionnaire about possibilities for leisure, culture, free time, citizen participation, health, peer relationships, etc.

As explained by Vanessa Parellada, youth affairs councillor, "the responses will guide us in developing this third strategic plan for Formentera children and youth. The plan will also include the participation of entities and social partners from all areas of Formentera related to children and youth."

"This information will serve to update our study of local children and youth's situation, and will shape an analysis highlighting which needs are best met, the achievements of the second Plan and the direction that the next plan will take, as well as the projects it will include", added Councillor Parellada.

Form
Responses are anonymous, and the form can be filled out at the following address: shorturl.at/dlFZ9. A poster with a QR code will also be posted on social media and on the Consell de Formentera website to invite young people to participate. The questionnaire has additionally been distributed among pupils at IES Marc Ferrer and youth at the Casal de Joves.

The second Plan for Children and Youth was adopted in September 2018 and related proposals were scheduled to be developed between 2018 and 2022.
