

Today in the Formentera Council Sala de Plens a drawing was held to call islanders to serve as table representatives and back-ups at local polling stations for municipal, regional and European elections on May 26, 2019.

Eighty-one Formentera residents were picked as candidates with the help of a special computer programme and will now be contacted and notified. Some among them will be called on to staff “electoral tables”—one in la Mola, three in Sant Ferran and five in Sant Francesc. Each *mesa electoral* will have a designated chairperson and two members, plus two replacements for each member. Seven thousand seven hundred eighty Formentera voters have been called on to cast their ballots in the coming elections.
