In line with Royal Decree 10/2020 (29 March 2020), the Consell de Formentera establishes the following minimum services from today 30 March to 9 April:
-Help at Home (*Servei Atenció Domiciliària*, SAD) and support for minors and victims of gender violence.
-Fire department and local police.
-Mortuary and cemetery services with vigil and funeral ceremonies in accordance with Order SND/298/2020 to limit propagation and spread of Covid-19.
-Maintenance and cleaning brigade: minimum operational maintenance of municipal facilities and cleaning of those areas necessary for essential services.
-Abbatoir (*Escorxador*).
-Pound (*Canera*).

The decree also lays the groundwork for establishment of minimum required action to maintain service crews and infrastructure, including defining minimum personnel or shifts similar to holiday or weekend protocol.

The current decree was itself preceded by exceptional measures and work at home schemes. Under the new order, individuals unable to work from home must register for a permit for recoverable mandatory retribution (*permís retribuït obligatori recuperable*), and have until 31 December 2020 to reimburse or compensate pay from interrupted work. Details to follow will be agreed with the administration.

Leave is to continue unchanged for workers already at home on leave or active vigil as a result of Covid-19.

As the Consell de Formentera is not considered an essential service, urgent registry transactions will be performed by email, and telephone support will continue. The online portal of the Citizen Information Office, the Ovac, will remain active.
