

Location

This project located in the town of Sant Francesc de Formentera, aims at transforming the former Civil Guard barracks, now abandoned, craftsman and multipurpose cultural center. Is to maintain the spatial structure and the constructive logic of the old headquarters, thus preserving a historical picture of the ancient heart of Sant Francesc.

Current Situation

Formentera is a historic lack of facilities for exhibitions of craft itself. Likewise there is no peasant market, when the island's agricultural production has traditionally been at the center of the family economy.

Objectives

The intention is, first, create a space that serves to invigorate the traditional agriculture sector, giving a direct distribution channel to the population and the other providing an exhibition space where artisans can show their work stimulating handicraft production.

Budget

The total budget (VAT excluded) for the execution of the work is: Euro 578,601.07. The European Union through the European Regional Development Fund (ERDF OP 2007-2013) co-finance the work by 50%.
