

The Formentera Council's office of culture has scheduled for this Sunday 14 June three different sessions of the production “*Bitels per a nadons*” (Beatles for babies), a tribute to the mythical band of British rockers that is tailored specially for children ages 0 to 3. The shows take place at 12:30, 1:30 and 5 p.m.

*Bitels per a nadons*, put on by the Petita Malumaluga theatre company, is one of the most ambitious productions of its kind to be released in recent years. The particular set-up was conceived to allow children in the audience to come to the stage and move freely about whilst the concert—performed against dazzling set design and complete with sophisticated musical arrangements—continues its course.
