

The Formentera Department of Inspection Services reports that from Monday 26 July until 15 September the island's roadworthiness test site (Inspección Técnica de Vehículos, ITV) will open Monday to Friday between 7.30am and 2.30pm and will close Thursday afternoons. The morning timetable has been extended by half an hour from 2.00pm to accommodate all the weekly appointments. Staff estimate the change will mean they can offer 30 additional appointments per week. Opening Thursday afternoons allowed the service to accommodate just 18 additional appointments.

An overabundance of slots still available this July meant motorists with August appointments were contacted via SMS in case they wished to move them forward. Appointments for roadworthiness tests can be made by calling 971 32 31 30 or emailing itv@conselldeformentera.cat.

The Formentera ITV closed out 2020 with a waiting list of zero and nearly 6,000 vehicles inspected.
