

The Formentera Department of Culture reports that students of Remedios Castillo and Silvia Jobani's ceramics workshop unveiled the fruits of their latest efforts. The display will be on view, Monday to Friday, 11.00am to 2.00pm and 6.00pm to 8.00pm, at the municipal gallery (Sala d'Exposicions 'Ajuntament Vell') in Sant Francesc until Friday 21 February.

The show offers a glimpse at some of the work that has been crafted by the 19 adults and 36 children enrolled in the commerce department-backed pottery course. Year-round classes teach students how to model clay and some techniques in making decorative ornaments.
