

The Formentera Council's Office of Mobility has announced that, as of Monday, May 1, the hours of enforcement have changed for metered parking in la Savina. As occurred last year in the run-up to summer's arrival, drivers will be held to a one-day limit on parking (as opposed to three days in winter) unless they reside in la Savina and park in a green-zone space, where the limit is 15 days. Metered hours are once again 9.00am to 9.00pm.

New this year, credit-card payments are accepted and updates have been made to the metres' on-screen layout and ticket format.
