

The Formentera Department of Mobility reports that from tomorrow, Wednesday May 1, summer hours will be enforced across metred parking areas in La Savina, Sant Francesc, Sant Ferran and Es Pujols. In la Savina, Sant Francesc and Sant Ferran metred parking rules are in effect from Monday to Sunday 9.00am to 9.00pm and, in Es Pujols, Monday to Sunday from 10.00am to 12 midnight.

Blue zone parking passes will be valid in any blue spaces on the island, while drivers of vehicles that are ineligible for the blue zone reduction must pay €1.20 per hour.

Drivers can leave their cars parked a maximum of one day in summer, as opposed to the three-day limit applied in winter. As far as green zone parking is concerned, motorists in La Savina can park up to 15 days (drivers of authorised vehicles have up to 24 hours).

15-minute parking
The rollout of 15-minute parking spaces started in November and the scheme will continue through summer. Located in Sant Francesc and Sant Ferran, these spaces are designed to promote vehicle circulation in areas of heavy business activity and parking shortage.

Fiften-minute parking passes can be obtained by any driver for free and are valid for any associated 15-minute space. No other passes will be accepted for vehicles parked in 15-minute spaces.
