

The Formentera Office of Mobility is pleased to announce that from tomorrow, 1 September, Formentera residents will be eligible for free rides on public transport while other riders benefit from a 70% reduction in the cost of seasonal and multi-journey tickets. This measure will be effective until 31 December 2022.

Islanders keen to benefit from this discount need only show bus drivers a government-issued ID and a digital or physical copy of their certificate of residence. Whenever possible, riders are encouraged to cut down on paper by using their mobile phones to show their resident's certificate.

Other riders can purchase their discounted tickets when they board. New seasonal ticket prices:

- Day Pass: €3 (formerly €10)
- 20-Trip Pass [short distance]: €6 (formerly €20)
- 20-Trip Pass [long distance]: €9 (formerly €30)
- 25-Trip Youth Pass: €6 (formerly €20)

Rafael González, councillor of mobility, expected a total of 4,000 passengers would benefit from the discounts and said the measure was "in addition to others such as free service for underage riders, people with disabilities and their companions".
