

Today, CiF president Jaume Ferrer and the deputy director of Club Surf Formentera, Alex Buchau, signed into action a deal to share management of Formentera's municipal windsurfing school in 2017.

The partnership is aimed at making use of the Formentera Council's provisional la Savina facilities, located alongside s'Estany des Peix on the road that connects to the mouth of the lake.

Under the deal, the Council will pay Club Surf Formentera €18,000 to use the temporary site and additional nautical equipment for windsurfing school. In turn, the club promises to hire the necessary personnel to oversee the centre's activities programme and upkeep.
