

The local youth drop-in centre, the department of sport and the school of dance and music of Formentera have come together under the aegis of the Formentera Council to host the island's very first gathering of dance troupes.

Set to take over Sant Francesc's plaça de la Constitució this Sunday, April 29 from 12 noon, the event coincides with International Dance Day. The eight participating *colles* (troupes) will represent a sampling of the different dance veterans here on the island and the types of dance that are practised locally. Onlookers will be treated to demonstrations of classical and contemporary dance as well as displays of capoeira, latin and African dance, “insideout” and varied homegrown specialities.
