

The Formentera Department of Sport reports that municipal sports programmes have resumed for children under 12. FDS has contacted local clubs to relay the latest developments and remind them that, given Formentera's current situation of extreme risk, non-contact training can resume as well with tier 4 rules in place.

Despite improvements in the public health situation, FDS urges islanders to remain vigilant and adhere to all regulations strictly, and asks clubs to practise activities outdoors whenever possible.
