In recognition of World Cleanup Day 2021, this Saturday 18 September, the Formentera Office of Environment (FOE), in association with Plastic Free and Que Celeste, will host a cleanup of S'Estany des Peix.

Participants are asked to meet at 10.00am in the Formentera Nautical Sports Centre (CENF) in La Savina. All necessary material will be provided by FOE.

World Cleanup Day is the world's largest exercise in civic action, directly involving more than 180 countries in tackling the global waste crisis. Organisers highlight WCD's strong and one-of-a-kind network of stakeholders who share the vision of a waste-free world and believe that together we can clean the world of rubbish.
