

Today, Ana Juan, President and Councillor of Entrepreneurship, met with the six newly hired members of Consell de Formentera staff. Recruited through SOIB Reactiva, the individuals will be employed by the municipal administration for the next six months.

Among the previously unemployed recruits, two are under 30 years old and will work as administrative assistant and brigade operator. The other four new hires are over 30 and came from situations of long-term unemployment; two will work as information assistants, one as a brigade operator and one as a cleaner.

President Juan told the new recruits she hoped that "their work experience with the Consell is immensely worthwhile and that it eases their re-entry to the labour market".

Plans are in place for a second round of recruitment, which will include positions for three people. 2021 SOIB Reactiva is backed by the SOIB and co-financed by the European Social Fund (part of Operational Programmes for 2014-2020 Youth and Regional Employment) and with state funds through the Sectoral Conference on Employment and Labour Affairs.
