

Upgrades at social welfare offices and local police station

Thursday, 03 August 2017 20:13

The Formentera Council's Office of Infrastructure wishes to announce the completion of upgrades to the facade and roof of the building that houses the Office of Social Welfare and Formentera local police.

Crews cleaned and repaired cracks in the building's surface before painting it. They also cleaned a portion of the walkable roof, installed waterproofed tiles, fixed leaks in the building and switched out portions of the tile roof that had fallen into disrepair.

The Council brought in an outside contractor to oversee the work, which was valued at €27,680.40, VAT included.
