

The Office of Social Welfare of the Consell de Formentera is pleased to announce the return this year of an emotional management programme for children from year four of early-childhood education to year six of primary school. The activity will take place from October to March at CEIP El Pilar, CEIP Sant Ferran de ses Roques and CEIP Mestre Lluís Andreu.

The programme will take the form of four- or five-part workshops and content will be tailored to the characteristics of each group.
