The president's office of the Formentera Council wishes to remind residents that this 2017 marks 10 years since the administration's creation. To commemorate the event, in addition to adding the words “10 years” to the CiF logo on official stationery and the CiF website from March 1, the administration is organising events around the most relevant dates, March 1 and July 10.

On March 1, 2007 the Statute of Autonomy of the Balearic Islands was published in the official bulletin of the Spanish state, creating the Formentera Council alongside the Eivissa Council. That differed from the region's 1983 statute, which recognised one single council for both the Pityusic islands. The second important date is July 10, 2007, forty-five days after the May 27 elections that established the Formentera Council.
