

Consell de Formentera president Alejandra Ferrer, and the director of Formenterers Solidaris, Maria Costa, have put their signatures on a €25,500 partnership agreement between local government and the hometown NGO. The deal will support food deliveries to Formentera's most vulnerable, as well as cooperation projects in developing countries in 2021. Consell vice-president Ana Juan and Sara Miguel, the deputy director of Formenterers Solidaris, also attended the signing.

Under the arrangement, the non-profit will administer food vouchers from the Formentera Department of Social Welfare, distribute food to at-risk islanders; shape and manage cooperation and development initiatives in developing countries; organise lectures, round-tables, forums and exhibitions, and host drives to collect donations for people in need.
