

The Formentera Office of Mobility is pleased to announce that 2022 European Sustainable Mobility Week will run Friday 16 September to Thursday 22 September, with two local actions to promote sustainable mobility.

**Conventional and electric bicycles**

20 to 22 September, 10.00am to 1.00pm in Sant Francesc's Plaça de la Constitució, Formentera's two bicycle vendors will present an array of conventional and electric bicycles. Residents can try them and learn about special discounts currently available. There will also be bicycle accessories, such as helmets, lights, vests and more.

**Free tune-ups for residents**

20 to 22 September, local cyclists will also benefit from a free servicing and tune-up. Taller Es Brols Formentera (Carretera de la Savina, km 2) will offer the service from 8.00am to 7.00pm, and Formentera Cycles (Carrer Guillem de Montgrí, 35, Sant Ferran) will offer it from 4.00pm to 8.00pm.

Residents with an ID card and certificate of residence (preferably on mobile phone/paperless) can visit the shops and an expert will offer a free tune-up. The offer includes basic servicing of the chain, wheels and brakes.

Rafael González hopes that these actions will get "more people on the island moving around on electric or conventional bicycles. These vehicles adapt very well to the characteristics of the island". Finally, the councillor pointed out that sustainable mobility also includes buses, which until 31 December are also free for residents.
