

The Department is a specific resource that works on different axes, and has a rigorous commitment to the policies and actions aimed at welcoming and integrating immigrants. One of the goals is to provide individuals and institutions all necessary information relating to aliens and immigration advice and assistance in the various related procedures, in order to promote legal and social citizenship for immigrants to facilitate their integration. On the other hand works with immigrant associations, promoting the association and providing access to resources.

**Composition:** 1 immigration technician

**Target group:** Immigrant Population

**Functions / Services:** The Department is a specified resource to complement the resources generated by SS.SS through actions focused primarily on information and cultural mediation. This is a cross-sectional area of great technical and social complexity that focuses an important part of total claims received by the Municipal Centre of Social Services and works in coordination with other departments of the Centre.

Works on different axes, and a rigorous commitment to the policies and actions towards the reception and integration of immigrants. One of the priorities of the department is to provide individuals and institutions necessary information relating to aliens and immigration advice and assistance in the various related procedures, in order to promote legal and social citizenship for immigrants to facilitate their integration.

On the other hand works with immigrant associations, promoting the association and providing access to resources.

**Schedule:** Monday through Friday, from 9 to 14 h. Wednesday from 17 to 19 h.
