

On Saturday 27 September at 8:30 pm, the Plaça de la Constitució in Sant Francesc Xavier will serve as the backdrop for a special presentation of *Visc a Formentera: retrats i converses* ('I live on Formentera: portraits and conversations'), a collection of photography by Dolors Porredón. In the event of rain, activities will be relocated to the cinema.

Guest musicians will provide musical accompaniment while selected images from the book are projected nearby for all to see. With 90 subjects in total, the book is composed of photo bio-ops of different Formentera personalities, collectives, cultural associations and sport groups.

The book's author Porredón was last in the public eye in 2011 for an exposition entitled "Formentera, l'illa de les dones" ("Formentera, the island of women"), which showed women of different backgrounds all united by a shared home: Formentera.
