

The Formentera Council has launched a new domain name, www.aferraliaparca.com ('*aferra'l i aparca*

meaning 'stick it on and park' in Catalan – TN), dedicated to providing information on the system of regulated parking in La Savina. The website, which is translated in Catalan and Spanish, regroups info such as maps of the blue and green parking zones; specific decal types depending on whether an individual resides in La Savina or another part of the island, is applying as a business or drives an electric car; and other details concerning the recent project aimed at freeing up parking in La Savina.
