

The Consell de Formentera reports that this year Carnaval celebrations 26 February will be suspended due to the public health situation on the island, which entered tier 4 of alert Monday 31 January.

When a territory is at tier 3 or higher, controls must be placed on access to events outdoors and in open spaces, namely, in the case of popular festivities. For local celebrations of Carnaval, a social and festive occasion, such measures could not be guaranteed. Additional challenges were envisioned to enforcing safe physical distancing measures.
